Wayne:

Thanks for the heads up on this. Your timing on this is good. We are very actively discussing this issue at the moment so talking to headquarters folks is very timely. Have a great week.

Dennis McLerran
Regional Administrator
EPA Region 10

Hi Dennis,

I hope this email finds you well and able to enjoy the labor day holiday. As you may know, the broad-based coalition concerned about Pebble Mine will be in Washington, DC Sep 21-23 and is hoping to meet with several people at USEPA including Pete Silva, Michelle DePass, Bob Sussman, Scott Fulton, and Bob Perciasepe. I want to make sure that you know about this as I will be requesting the meetings early next week. I want to check in with you and see if you have any concerns. I am aware that many of the stakeholders have spoken with you and the Administrator and the last thing I want to do is put you in an uncomfortable position. Please let me know if you have any concerns or would like to talk about this (you can always reach me on my cell at [REDACTED]). I've attached a backgrounder that I intend to use for the meeting request. Again, I hope you enjoy the labor day holiday and look forward to hearing from and seeing you again soon. All my best,

Wayne
